Self Defense America

The Hand to Hand Combat Training Center (H2HCTC) is offering a local Corporate Wellness in the form of Self Defense. Martial Arts are well known to be one of the best forms of exercise because it encompasses so many aspects of overall fitness.

The H2HCTC’s purpose is to create an understanding and awareness of the importance of training hard and getting more and more dangerous. In order to adapt, new methods of combat and personal defense must be learned.

H2HCTC’s Mobile Training Team’s (MTT) were created to travel to the locations of police, homeland security personnel, firefighters, private and corporate security, executives and hospital staff to name a few.

Healing Touch
Healing Touch
Becky Lee Osterback, BSN, RN, is a Healing Touch Clinician (American Holistic Nursing Association). She uses hands-on treatments and energy-based techniques with the best of technology. The nursing profession first designed Healing Touch with a clinical focus that uses touch to promote physical, emotional, mental and spiritual health. You are given the opportunity to feel empowered by participating fully in your healing journey!

Healing Touch Process
All healing is basically self-healing. A doctor can set two bone fragments in place, but the body itself finally heals the break. The physician simply directs the process. Healing Touch is complimentary. It functions from an energy perspective, rather than a physical one. In a safe, relaxing environment, the connection is re-activated between mind, body & spirit. This eliminates obstacles to self-healing.

Benefits of Healing Touch
- Reduces Stress
- Calm anxiety, depression
- Decrease Pain
- Strengthen the immune system
- Enhance recovery from surgery
- Complement care for neck and back problems
- Deepen Spiritual connection
- Support Cancer Care
- Create a sense of well-being
- Erase acute & chronic conditions, including Fibromyalgia.

Individual experiences will vary.

Raindrop Technique
This spa-like experience with full body massage & Healing Touch is completely relaxing & rejuvenating. Raindrop Technique uses therapeutic-grade essential oils that are antiviral, antibacterial & anti-inflammatory boosting your immune system and helps your body heal itself.

Raindrop Technique Process
As you relax, the oils are applied to the spinal reflex points of your feel. These reflex points communicate through your nerves to reach your circulatory system. Nine different oils will be applied like rain drops along your spine and over your back. Feather-like strokes massage the oils along the spine.

Benefits of Raindrop Therapy
- Soothe aches and pains (from age & injuries)
- Reduce colds and the flu (supports the immune, endocrine & nervous system)
- Rejuvenate your soul (aromas create peace & calm)

Individual experiences will vary.

AquaMED Dry Hydrotherapy
Created for the medical industry...now available to you! The heating comes through water, heat and massage while you stay dry. The bed creates 40 pounds of pressure and you don’t even have to remove your clothing. From stressed discomfort to calmed rejuvenation in 15 minutes.

Whole Body Vibration (WBV)
Exercise and healing in just 10 minutes. This patented technology utilizes the “whole body vibration theory”. It originated from the concept of human body movement under Earth’s gravity.
Research shows the WBV improves:
- Circulation
- Depression by increasing serotonin
- Energy & Endurance
- Increase flexibility & agility
- Health & well being
- HGH levels up to 460%

Quantum Biofeedback

This non-invasive procedure takes about 3 minutes to measure your body’s levels and then provides a comparison to normal levels. The EPFX results can offer a better understanding of your possible needs, dysfunctions and vulnerabilities and help you better manage stress and pain. This safe procedure can also be used on children and pets.

Monitored Stressors:
- Viruses

- Allergies
- Abnormalities
